What is a beautiful watch? How do you make a good choice? *The Magic of Watches* explains how and why these little objects are so precious, fascinating and exciting. The book presents paradoxes: why a one-million-dollar watch might be less precise and more fragile than one that costs 15 dollars. It comes back to the origins of the measurement of time: how did we go from the water clock to the wristwatch? The book goes on to technique: how does a mechanical movement work? How does a quartz one work?; delves into details: what is a 'complication' and when do we speak about 'chronometer' showcases art: how do we enamel a dial? *The Magic of Watches* is unique: it focuses in detail on the basics in order to understand and love watches better. Biographie de l'auteur

Holding a Master's degree in History and Sociology as well as certificate in Journalism with a specialisation in watches and the watchmaking industry, **Louis Nardin** was appointed in 2008 editor-in-chief and content manager of Worldtempus.com, a reference site available in French, English, and Mandarin. Since 2012, he has been the editor-in -chief of TheWatches.tv, a web based television channel dedicated to watches located in Geneva. Nardin also works as an independent journalist for topical publications such as *Watch Around* and *HH Journal*, The Fondation of Haute Horlogerie webzine. He has been a speaker for watchmaking events as well as co-organiser of private events for independent watch brands during Baselworld. He also envisages technical concepts such as the display of the Lady Comliquée, a highly complicated timepiece completed by Fabergé in 2015, which won the Ladies' High-ech Watch Prize at the Grand prix d'Horlogerie de Genève 2015.
